

FOUNDATIONS OF SPECIAL EDUCATION

WHAT IS SPECIAL EDUCATION?

Special education is specially designed instruction that addresses the unique needs of students eligible to receive special education services. Special education is provided at no cost to parents and includes the related services a student needs to access her/his educational program.

JOIN AND ATTEND

APEC and The Regional Autism Network will host two virtual sessions to connect families of children with disabilities to information and support. Attend virtually to learn how special education services may support your child's success in school.
