

STEM SATURDAYS

Make something amazing!

GRADES 6-8

9-11 AM

\$10 PER SESSION

Students Only: Parents Drop-Off & Pick-Up

OCT 31 ENGINEERING THE JACK-O'-LANTERN

Build a reusable Jack-o'-lantern with 3D-printed, laser-cut and routed parts, then take it home! Be among the first prospective students to work in our new Applied Learning Lab.

NOV 21 BUBBLE. FIZZ. EXPERIMENT.

Mix and test chemical and physical changes. Explore density in the Sink, Hover, Float Lab, then test eight compounds to discover what makes the best cold pack.

DEC 5 CREATE, GROW & DISCOVER

Use a micropipette to make a colorful paper Christmas ornament. Build a mini succulent terrarium, choose its soil, add tiny animal figurines and plan how to keep it healthy

TAKE-HOME PROJECTS

ONLY 25 SPOTS PER SESSION
