Develop your child's intellect through the royal game of chess! Current research has shown a strong link between chess and academic performance in a variety of areas, including mathematics and language arts. Chess has been proven to enhance children's motivation, concentration, focus, social skills, and creativity.

Each class will consist of a fun, interactive teaching period and guided practice time. Both beginner and experienced players are welcome and will learn under the guidance of an experienced Chess Scholars coach. There will also be a chess competition with prizes at the end of the session!
