COVID-19 Data Dashboard Improvements

The [Dashboard of COVID-19 Activity in Vermont](https://healthvermont.gov/covid19) has undergone some changes to improve the user experience. Thank you to all who provided feedback through our website survey!

In the left-hand column of numbers, we now highlight the number of New Cases more prominently, with Total Cases in smaller font underneath. The categories of Recovered and Deaths now also includes the percentage of total cases.

We’ve also added some new data categories:

- Hospitalized in ICU
- Positive Test Rate 7-day Avg.
- Total Tests

The main tab now features the map of COVID-19 Positive Cases by County in Last 14 Days. Click on the right- and left-hand arrows at the bottom of the dashboard to scroll through the tabs and view other changes. (See the complete list of changes by clicking *NEW: 10/29/20 Dashboard Improvements*)

Case Information

Current COVID-19 Activity in Vermont
As of 12 p.m. on October 29, 2020

Description	Number
-------------	--------

New cases*	16 (2,141 total)
Currently hospitalized	6
Hospitalized in ICU	2
Hospitalized under investigation	0
Percent Positive (7 day average)	0.5%
People tested	188,102
Total tests	398,109
Total people recovered	1,778
Deaths+	58

* Includes testing conducted at the Health Department Laboratory, commercial labs and other public health labs.

+ Death occurring in persons known to have COVID-19. Death certificate may be pending.

Hospitalization data is provided by the Vermont Healthcare Emergency Preparedness Coalition and is based on hospitals updating this information.

Find more at the data dashboard: healthvermont.gov/currentactivity.

Get Your Flu Shot!

It's especially important for everyone to get their flu shot this year – when flu viruses and the new coronavirus may be spreading at the same time. Help keep flu out of the picture!

We encourage everyone older than 6 months old (with rare exceptions) – and especially people in a high-risk group or who have underlying health conditions – to get their flu vaccine. [Learn more about the flu and find a flu shot.](#)

Guidance for Long-Term Care Facilities and Adult Day Programs

Find guidance for [long-term care facilities](#) and [adult day programs](#), on the Department of Disabilities, Aging, and Independent Living's [Restart Vermont web page](#).

Guidance for Vermonters and Businesses

Traveler Information

Visit our [Travel to Vermont](#) web page for information and guidance, including about quarantine requirements, testing and to [sign up with Sara Alert for symptom check reminders](#). The [cross-state travel map](#) is updated each Tuesday.

Getting Tested for COVID-19

Anyone can get tested, but not everyone *needs* to get tested.

Talk with your health care provider If you think you should be tested for COVID-19.

If you don't have a provider, dial 2-1-1, or contact the nearest [federally qualified health center](#) or one of Vermont's [free & referral clinics](#).

[Visit our testing web page](#) for more guidance and where to get tested if you do need it.

Take Care of Your Emotional and Mental Health

If you or someone you know is in crisis or needs emotional support, help is available 24/7:

- Call your [local mental health crisis line](#).
- Call the [National Suicide Prevention Lifeline](#) at 1-800-273-8255.
- Text VT to 741741 to talk with someone at the [Crisis Text Line](#).
- For more information visit healthvermont.gov/suicide.

Get self-help tips and connect to mental health services at [COVID Support VT](#).

See ways for [Coping with Stress](#).
