United Methodist Preschool

What We Did This Week

This week we finished up our shapes theme with lots of fun games, books, and songs. We made shapes collages, worked on geoboards to make shapes out of rubber bands, and did tangram puzzles. We finished our book about shapes, and everyone was so excited to read it and find that they were actually in the book! They all added their own special touches to their book, and are bringing it home in their folders to show you. We also learned the letter "T" this week. Every morning we practice the new letter we are working on, along with what we have already learned, and the kids are so proud when I cannot "trick" them.

Questions to Ask Your Child

- How many sides does a triangle have?
- What is your favorite parachute game?
- Can you read me your shape book?

Upcoming Events

Next week we will start learning about the changes that occur in Fall. We have lots of exciting activities planned, including our trip to the pumpkin patch on Friday. Make sure to look at the reminder about the field trip for more info.

Reminders

- Thank you to Pastor Laura for reading and singing with us this week!
- Thank you to Sharon Wormser for letting us help plant flowers. We had so much fun digging in the dirt and watering the new pansies!
