

EMPLOYEE SPOTLIGHT

Congrats!

Congrats & A BIG Thank you
Diane for years of dedication
and support to OPICA

Diane Alvy Program Coordinator, Nursing Preceptor

Diane has worked at OPICA since
2004. Her dedication to our
members shines through
EVERYDAY!

When her colleagues were asked what are the three things 3 things you like about working with Cathy.

Here's how they responded...

1. Her inquisitive spirit. The gracefulness she brings to her exercise classes, her search for interesting facts to share with others and her knowledge of the background of our members.
2. Diane is many wonderful things but, something that has stood out to me from the first day was her curiosity. Diane is truly a lifelong learner; she is always trying to pick up new things and absorb a variety of content...all in the pursuit of knowledge!
3. Diane is a special person. She is dedicated, caring, and compassionate with our members. I love her chair ballet dance routine. She is a great person to work with, reliable, and hardworking.

What Diane likes about working at OPICA- I like: the OPICA members, my co-workers, my boss, the social aspects; the programs; the stimulating environment. I like OPICA because it benefits my health, and I like the work I do.
