

One Wish Project is a tax-exempt non-profit organization founded in 2017 by then, 14-year old Hannah Finn, who wanted to find a meaningful and impactful way to give back to her community. With her love for baking, Hannah started delivering a homemade birthday cake and presents to 8-10 children living in a local homeless shelter on each of their birthdays.

It is the belief and the commitment of One Wish Project that each of these children experience the joys of a birthday celebration that they may not otherwise have due to circumstances beyond their control. These children live in a world of uncertainty and insecurity. Their parent(s) struggles to provide their children with the most basic necessities. An upcoming birthday can trigger additional stresses for any parent who just wants to provide her child with the joys of a birthday celebration while the birthday child craves to be recognized and celebrated on the one day that truly belongs to them.

Today, One Wish Project brings the celebratory and joyous experience to over 350 deserving children each year living in transitional homes. With each birthday designed uniquely around each child/teen, our hope is to instill a sense of self-worth in each of them by recognizing and celebrating them on their special day.
