I am coordinating two sessions:

Session 10 - June 25, 10:30 a.m. to Noon (Day 2)

Small Group and SHOP Market: Things You Should Know

As Congress grapples with the future of the ACA, most media coverage has focused on the uncertain future of the individual market. This session spotlights the potential impact that reform could have on the small employer market through the ACA's Small Business Health Options (SHOP) program. Hear from experts on small group requirements, ratings, multiple plans issued to one employee, valid groups, eligible groups, eligible employees, census data and participation requirements.

Session 119 - June 27, 10:30 a.m. to Noon (Day 4)

Pricing Risk: From a Solvency Perspective

The focus will be on a regulatory perspective concerning pricing risk. The session will cover all types of health insurance products from major medical, voluntary, to long-term care. Attendees will learn from both pricing actuaries and regulators on what they need to know about factors that influence and determine pricing.
