McLAREN PHYSICIAN PARTNERS

PROVIDING RESOURCES TO SERVE YOUR NEEDS AFTER YOUR HOSPITAL STAY.

Your health and well being is very important to McLaren Health Care.

When you are discharged from the hospital, depending on your discharge diagnosis, you will likely receive several follow-up phone calls to assess your progress and recovery, and to answer any questions you may have.

After discharge, following up with your Primary Care provider is essential to your recovery and minimizes possible complications and a potential return to the hospital following your discharge. You should schedule an appointment and visit with your Primary Care provider within 7 days after discharge.

If you are having difficulty scheduling a follow-up appointment or have a transportation concern, please contact McLaren Physician Partners at (844) 368-1817.

Additional Care Management Services available:

- Chronic care management education
- Self-management techniques education
- Financial concerns assistance
- Transportation needs
- Home health care and/or assistance
- Inadequate housing or food concerns
- Medical and non-medical concerns that may affect your health

For more information or to access services, please contact our care coordinators via our secure phone line at **(844) 368-1817**.
