

Thought Leadership Bio

Steve Wilson
Vice President Products | Cloud and Core Services
Citrix

Steve currently holds the position of Vice President of Products at Citrix. Today his team is responsible for key elements of Citrix Workspace and Citrix Analytics. His team is also responsible for all Product Design across the company.

Steve has over 25 years of experience developing and marketing products at multi-billion-dollar technology companies such as Oracle and Sun Microsystems. Prior to Citrix, Steve led development for a software product-line with \$1 Billion in annual sales at Oracle. During his time at Sun Microsystems, Steve was an early member of the team that developed the Java computer programming system, the most widely used set of software development tools in history.

Steve is the author of “Java Platform Performance: Strategies and Tactics” and “The Father/Daughter Guide to Cryptocurrency Mining.” He is a popular speaker on future of work and artificial intelligence topics and has recently presented at The Churchill Club, Silicon Valley Leadership Group, DLA Piper Global Technology Summit, IDG Agenda, SAP TechEd and WSJ Tech D.Live. He holds a degree in Business Administration from the University of San Diego and a second-degree black belt from the American Taekwondo Association.
