*Leading the Way*

# We're protective of those we serve.

Providing quality services to help you buy and sell your home has always been our top priority—and a big part of that commitment is helping protect you and all involved.

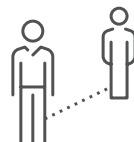

These days, that means taking added precautions. As a member of Leading Real Estate Companies of the World®, we are well-trained in globally established guidelines for touring homes and well-stocked in supplies and technologies that allow us to assist you more safely.

## Supplies in Hand

We have an ample supply of facemasks, hand sanitizer, and latex gloves, providing added protection when we are showing your home or accompanying you on home tours.

## Responsible Engagement

Potential buyers will be escorted on home tours and required to abide by safety guidelines, including wearing facemasks, touch-free viewing and maintaining an appropriate distance.

## Technology Alternatives

Our access to advanced technologies for guided online showings and Virtual Reality tours helps us market your home to a broader audience. If you are in the market to buy, you can view homes up close, virtually and safely.

Some things never change. As always, we are here to meet your real estate needs, but with new protections in place—because we're protective of our people.
