

# TRAUMA INFORMED CARE 2019-2020

## HIVELY

6601 OWENS DRIVE  
PLEASANTON, 94588  
925-417-8733

Childhood trauma is defined as, "The experience of an event by a child that is emotionally painful or distressful, which often results in lasting mental and physical effects." It is important to recognize the signs of trauma and its short and long term impacts on children. While children are resilient, adults can significantly help children recover from traumatic experiences more effectively. **Join Hively CEO, Kelly O'Lague Dulka, MSW,** as we explore a variety of trauma-related topics in order to better recognize, understand, and respond appropriately to the multitude of effects that stem from trauma in childhood.

TRAINING 6.30PM – 8.30PM	PEER LEARNING & COACHING 6.30PM – 8.30PM	TOPIC	REGISTER ONLINE
