

## December Board Meeting Highlights

The membership report noted that we currently have 583 members who have renewed or joined for 2021, and the year-end is fast-approaching. Now is the time to take advantage of online renewal or to return your paperwork to ensure you continue to enjoy your shooting pleasure, as the locks will all be changed on January 1.

The Officers and newly-elected Directors were officially sworn in and will begin their service in January for 2021. They are your representatives, so be sure to contact them with suggestions and comments you may have to continue to improve our Club.

The baffle replacement on Ranges A & F is complete and looks great! Jon is planning some upgrades on the Range F benches and target holders due to the total absence of columns interrupting your line of sight, and members are encouraged to help when they can. Contact Jon to volunteer and watch for a workday announcement soon.

The Parker County 4-H Shooting Sports Reindeer Shoot was a smashing success, with more than 50 participants who enjoyed the Sporting Clays Range and walked away with some nice prizes. Thanks to all who attended!

2020 has been a very challenging year for us all, but we have persevered and maintained our core values as a club and as individuals. We go into 2021 committed to continuing our dedication to our rights as Americans and support for our Club. Remember to always be SAFE and . . . have a Happy New Year!

Daniel
