

PCSC Members: We have been talking with some members about shooting Sporting Clay's and what we heard was, (1) I don't shoot it because it's too hard!(2) I don't know how to shoot it! (3)I can't seem to hit any because I am too worried about the 2nd bird and I miss the first one.

Well we listed and have come up with a new menu that will fit from Beginners to Advanced. Here is how it works.

Lazy River – Green- Beginners you call each bird on command. This will give you time to get set on the 2<sup>nd</sup> clay. This is a Pull Pull

Twin Rivers-Yellow- Intermediate all 10 stations are Report Pair.

Snake River- Red- Advanced – All 10 Stations are True Pair.

Bottom Line is we believe if you will try it you will like it. We are also looking at putting some club shoots on in the spring we will post it in the newsletter. I will also send it to the shotgun group. If you would like to be added the shotgun group e-mail please e-mail me at [pcscshootingsports@gmail.com](mailto:pcscshootingsports@gmail.com)
