

## June Board Meeting Report

Time to try a little different format this month. Here are some stories from your on-the-spot reporter with news you can use, in no particular priority:

— Kristi Ramon, BSN, RN, will offer free CPR and Stop-the-Bleed classes to members who want training on handling medical issues that may occur at the range or anywhere. She has a member willing to donate tourniquets, and she will add blood-stop and other first aid supplies to create kits and place one at each of our ranges. Members interested in attending a class should contact the Club at (817) 271-0467 to sign up.

— Mike Andren will present a proposal to the Board next month to provide LTC certification classes to members who want their carry license for concealed handgun.

— June is the month when the Board approves membership fees for the upcoming year. The vote was to increase the Spouse Badge fee from \$10 to \$25 for 2023 since Orientation is required for this badge.

— Preparations continue for the replacement of Range A benches, with the Board authorizing expenditure of not-to-exceed \$7,500 for materials and labor.

— The 4-H Bustin' Pumpkins shotgun shoot is scheduled for October 15.

— A new Archery range is scheduled to open in July at the north end of the Club. Components (including self-healing targets and bow racks) have been procured or fabricated, lanes have been cut, and range rules have been approved. Dust off those bows and quivers, y'all, and get ready for some practice for Bow season.

— Ryan presented a demo of the Online-only new member plan that is in development for roll-out starting October 1. This will simplify the process for joining the Club and reduce the burden for the Orientation volunteers.

— JT reported the locks for Sporting Clays have now all been rekeyed to match the other shotgun keys, so now you need only one for all things shotgun!

Stay Safe,  
Daniel
