CE Webinar for Healthcare Professionals When Decision-Making Is Imperative: Advance Care Planning (ACP) in the ED

In the fast-paced ED, time is often limited for ACP conversations. Attendees will learn to rapidly assess and identify hospice eligibility in patients with advanced illness who could benefit from ACP and timely transitions to end-of-life care in their preferred setting. Explore multiple approaches to initiate condensed, effective goals-of-care conversations that support transitions to hospice services.

Wednesday, November 17, 2021 | 12 pm ET | 9 am PT | 1 hour

For more information and to register: VITAS.com/webinars
Email us: webinars@vitas.com

Participants must register and sign in to the live webinar using the same email address. To earn CE credit, participants must view the webinar in its entirety and complete an online, post-event evaluation. They then receive a certificate to download, print, and fill out.

Eric Shaban, a regional medical director for VITAS, collaborates on clinical programs and supports hospice programs in Washington DC, Northern Virginia, Delaware, Pennsylvania, New Jersey, Connecticut, and Ohio.

Prior to joining VITAS in 2011, Dr. Shaban completed a fellowship in hospice and palliative medicine at the

University of Rochester Medical Center in Rochester, New York.

He is a member of the American Academy of Hospice and Palliative Medicine and is board certified in internal medicine and in hospice and palliative medicine.

This activity is approved for one continuing education credit hour for nurses (RN, LPN, LVN; in California Registered Nurses only), social workers and certified case managers. Licensed nursing home administrators in the State of Florida and Illinois may also receive one hour of continuing education credit. Attendance for the entire online webinar, as well as completion of a brief online evaluation, is required. Certifications are made available after completion.
