

WESTERN REGION BURN DISASTER CONSORTIUM

CREEK FIRE IV EXERCISE

MAY 3, 2022 | 3:00 PM to 5:00 PM MDT

Virtual Table Top Exercise with CME Credit

To register: [CLICK HERE](#)

Join us for a Virtual Table Top Exercise (VTX) of the Western Region Burn Disaster Consortium Burn Mass Casualty Incident Operations Plan, the final in the Creek Fire series. Participation in previous Creek Fire TTXs is not required. Physicians, advanced practice providers, nurses, EMS, fire, public health, emergency management, behavioral health, telemedicine, and others with an interest in burn disaster preparedness are welcome to participate. Please reference your burn surge plan in advance to better engage in the exercise.

Special thanks to our collaborators:

WESTERN REGION BURN DISASTER CONSORTIUM

CREEK FIRE IV EXERCISE

WESTERN REGION BURN CENTERS

Western Region Burn Disaster Consortium: For a map of all states and Burn Centers in the Western Region, please visit the [American Burn Association website](#). Please note that participants from any region are welcome to join in the exercise.

CREEK FIRE EXERCISE SERIES SCENARIO

 The California National Guard @CalGuard
Dozens of evacuees are evacuated to safety on a Cal Guard Chinook last night after the Creek Fire in central California left them stranded. Photo courtesy California National Guard.

Exercise Scenario: The "what if" from California's Creek Fire in September 2020. At 20:00 on a holiday weekend, a local hospital receives a call informing them of a burn mass casualty incident (BMCI) in their area, and EMS is on the way, transporting many burn injured patients to their facility.

Timeline: This final exercise in the Creek Fire Exercise Series will cover early incident notifications and activations through coordination of definitive patient care and after care. Focus will be on highlighting new resources and findings, and gap closure from previous exercises.

Scope: 2-hour, discussion-based online Zoom exercise with verbal and poll questions for enhanced participation.

CREEK FIRE IV EXERCISE OBJECTIVES

Exercise Objectives: At the conclusion of this activity, participants will be able to assess the Western Region Burn Coordination Center's ability to:

1. Assist with burn disaster patient distribution, including children and families, utilizing placement methodology resources and telehealth platforms.
2. Connect non-burn patient receiving facility providers with burn centers and resources in order to support coordination of burn patient care and appropriate transfer.
3. Identify gaps in the WRBDC BMCI CONOPS plan and assess collaboration strategies and plan alignment with critical response partners.

CME CREDIT

Accreditation: Steward Health Care Utah is accredited by the Utah Medical Association to provide continuing medical education for physicians.

AMA Credit: Steward Health Care Utah designates this live activity for a maximum of 2.0 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

EMS Credit: This educational activity has been approved for 2.0 hours of EMS CME credit by the Utah Bureau of EMS and Preparedness.

Disclosure: This educational activity does not include any content that relates to the products and/or services of a commercial interest that would create a conflict of interest.
