Stroke Symposium

This conference is designed to update the knowledge base of all participants with general and specific information regarding management of acute stroke patients.

During this program, participants will:

- a. Discuss personality changes associated with cerebrovascular disease.
- b. Discuss the symptoms of stroke and vascular patterns that they present.
- c. Discuss neuro interventional radiology procedures for stroke care specific to mechanical clot retrieval and aneurysmal subarachnoid hemorrhage (aSAH).
- d. Describe and discuss the elements of the National Institutes of Health Stroke Scale (NIHSS).
- e. Describe a day in the life of a neurointerventional patient.
