

MARO Regional Training Center Ebola Personal Protective Equipment (PPE) Train the Trainer

Background

Prior to working with Ebola patients, all healthcare providers involved in the care of Ebola patients must receive training and demonstrate competency in performing all Ebola-related infection control practices and procedures, specifically in donning and doffing proper PPE.

Goal

Participants will demonstrate competency in PPE donning and doffing, as well as the ability to train others.

Target Audience

Hospitals
EMS
Public Health

Pre-requisites

Training/education background.
