

NYC REMAC

PUBLIC NOTICE

PROPOSED REVISIONS PREHOSPITAL TREATMENT PROTOCOLS

The Regional Emergency Medical Advisory Committee (REMAC) of New York City Prehospital Treatment Protocols define the minimum standard of care provided to patients by Certified First Responders (CFRs), Emergency Medical Technicians (EMTs), and Advanced Emergency Medical Technicians-Paramedic (AEMT-Ps) in New York City. These protocols reflect both the curriculum and certification requirements of the New York State Department of Health Bureau of Emergency Medical Services and the Regional Emergency Medical Advisory Committee (REMAC) of New York City.

The REMAC of New York City has proposed revisions to the current regional Prehospital Treatment Protocols.

In order to meet regional needs, the REMAC of New York City is conducting a public notice and is requesting comments from the Emergency Medical community. Comments must be submitted in writing on the attached 'Comment Form' or via email to mdiglio@nycremsco.org. If available, appropriate supporting documentation should also be submitted. Comments must be received no later than 30-days from date of this posting.

Draft revised protocols can be reviewed on-line at www.nycremsco.org (under "News and Announcements"). All NYC REMAC Protocols can be accessed in their entirety at www.nycremsco.org.

Date Distributed/Posted: April 23, 2021

DIRECT ALL INQUIRES AND COMMENTS TO:
