

## **OLIVIA SCHNUR**

My best memory of Greenwich Crew was HOCR my sophomore year (2018). I remember how surprised we all were to be moving past boats in front of us, passing under the final bridge and hearing all of our friends and family screaming at the top of their lungs. It was my favorite race and we all finished proud of ourselves and hugged each other and the coaches when we docked.

I am so excited to see some of my current/former teammates on the racecourse in college. I've had a wonderful time rowing with some of my best friends, and even though everyone is going their separate ways, it's really great that we have people representing so many teams across the country.
