

Kennicott Girls Club

Do you ever imagine what life was like on the prairie in the 1800s? Now is your chance to experience it! Join the Kennicott Girls Club this spring and explore tasks typically performed by women and girls of the time through hands-on activities, like cooking on a wood burning stove, dying clothes, soap making, nature study, cabin building and more. Kennicott Girls Club will provide a fun STEM focused learning environment that's designed to empower children to try new things, think outside the box and develop confidence. Look for more information in the Glenview Park District's Spring Brochure and at www.glenviewparks.org.
