

Walking/Running Trail Enhancement at Phillips Park

Eagle Scout Troops 888 and 55 are currently working on a trail enhancement in Phillips Park near Rich and Fallis Roads. They are in the process of raising funds for the project which entails 4 foot bridges crossing over a deep gulley. The estimated material cost is roughly \$1700 per bridge. Funds are being raised through a number of sources including a resident donation, troops own fund-raising and help from the city. The Eagle Scouts are looking for community support to reach the total funds needed.
