

Line Service Technician

Alliance Aviation provides fuel and aviation services at the Lancaster Airport and is in the process of expanding its hours and services to better serve the aviation community. If the world of aviation with exciting opportunities on the horizon intrigues you, and you have an unwavering dedication to deliver great customer service, this full time Line Service Technician opening could be the opportunity for you.

The Line Service Technician candidate should display and maintain self-motivation, a positive attitude and work ethic, while working with a team, as well as when working unsupervised. Candidate should have the aptitude to operate a large vehicle (CDL not required) and enjoy working outdoors throughout the shift. Prior Line Service experience is helpful but not necessary.

Candidate should be a personable individual who makes a good first impression with customers and shall embody the following characteristics:

- Dependable, loyal & trustworthy.
- Hard working, self motivated & self directed.
- Organized, consistently accurate.
- Positive, energetic and proactive attitude.
- Common sense with the ability and desire to learn.
- Ability to multitask and think on your feet.
- Flexible and adaptable.

Specific duties include but are not limited to:

- Aircraft fueling, marshaling, towing & deicing.
- Perform quality controls and FAA compliance checks.
- Aircraft services to include GPU & Lavatory service.
- Concierge & other CSR duties on a limited basis.
- Maintain grounds, hangar area, restrooms, etc.
- Basic vehicle maintenance.

Minimum Job Requirements:

- 5 years driving experience with current driver's license & safe driving record.
- Ability to pass FBI criminal background check, drug test etc.
- Medium to light labor with ability to lift at least 75 lbs.
- Frequent moving, traversing, standing, stooping, bending, reaching and lifting are part of the normal workday routine. Much of the work is outdoors during all weather conditions.
- Aptitude for operating fuel trucks, tugs, forklifts, ground power units, lavatory carts, pre-heaters, de-icing equipment, lawn mowers, snow blowers and other equipment relating to aircraft services.

Shift Needed: Full Time (1pm-9pm to include both weekdays and weekends).

Start date: ASAP

Starting Wage: \$14 - \$16 an hour depending upon experience.

Benefits include: paid vacation, holiday, sick and personal time; medical and life insurance; retirement plan.
