3. Courses will run depending on enrollment. If your first or second course choice is not available, you may be offered to earn the credit through Fuel Education (online courses on back page). If all three options are not available, you will receive a full refund.
4. First semester refunds will not be given after June 16. Second semester refunds will not be given after July 14.
5. On the day of a student absence, a parent or guardian is required to notify school officials of the absence before 10 a.m. Please call (630) 295-5222 to report an absence.

Cutting class or leaving the building without permission will cause the student to be removed from summer school for the remainder of the semester. Any gross disobedience or misconduct (see below) will cause the student to be removed from the entire summer school program. A student referred for fighting or for two other incidents may be removed. Refunds will not be given to a student removed from summer school for any reason. If removed during the second semester, first semester summer school credit will be retained.

A student arriving after 8:30 a.m. or leaving before 11 a.m. is considered absent for the entire day. Any combination of tardies/absences totaling three days will result in the student being removed from summer school without a refund.**
9. Students may not use hallway lockers. Locks will be removed and contents of the locker will be confiscated.
10. Inappropriate behavior on a school bus may result in a suspension of bus transportation services and/or the student being removed from summer school (see #4 above). No refund will be given.
11. Cheating in any form will cause the offending student to lose credit for the assignment and the parent will be contacted. A second instance of cheating will cause the student to be withdrawn from the course with no credit of refund.

On-line Credit Recovery Courses & Codes

Fuel Education is an internet-based computer software program that allows students to make up credits for a variety of classes. Students are required to complete the work in class, which parallels the classes offered during the regular school year. Each student will receive a folder with a syllabus and a course plan indicating their designated amount of lessons they need to complete. Once a student has completed the course, the student will not need to return to summer school. The instructor will provide individual help during class, check student progress on a daily basis, and determine the final course grade, which are on a **pass/fail basis**. **A grade replacement will not be offered, only course credit.** It is expected that all students will complete their course by the final day of the class.
