

Letter to be sent to Administrators in 5 states (AL, GA, KY, MS, SC)

Dear Administrators,

Your facility now has free access to the CMS Region IV Long-Term Care Quality Improvement Initiative thanks to a grant funded through CMS and your SSA. This initiative includes a password-protected website, www.cpgltc.org, that offers **free access** to materials developed by The Society for Post-Acute and Long-Term Care Medicine (AMDA). The website is easy to navigate and appropriate for all staff members and as a training tool.

As a program participant, you and your staff will receive the following at no charge:

- Free access to AMDA's Clinical Practice Guidelines
- AMDA's *Know it All Before you Call*TM Data Collection Series
- Free CME/CE Credits for the disciplines of medicine, nursing, social work and dietetics/nutrition

In order to access the site you will need a user name and password. The user name and password are specific to your facility. If you have not received your user name and password, please let us know at help@cpgltc.org. The user name and password are for exclusive use by your facility for your management, staff and your facility medical professionals.

If you have questions or need support regarding the site, contact the helpdesk at help@cpgltc.org

To get the greatest benefit from the CMS Region IV Long-Term Care Quality Improvement Initiative, we encourage you to share this website with your staff.

Sincerely,

Betty Shiels, PhD-C, LCSW
Director, CMS Region IV LTC Quality Improvement Initiative
Kent School of Social Work, University of Louisville
