

*All people are valued, celebrated and connected to
a life of possibilities*

Hello Everyone!

My name is Heather Flick, and I am happy to announce that I have recently joined on as the Dementia Care Specialist here at the ADRC of Brown County. My background is in research, program development and implementation of supports for families on the dementia journey. I have experience in coaching families and those living with dementia and enjoy enriching their lives. I am thrilled to bring my skills and experiences to my home area of Brown County, and I look forward to working together with you and our partners in the community.

One of the exciting things happening locally, is the State of Wisconsin is looking to improve services and supports for those living with dementia and their loved ones. This is being done through a short survey, where we can all share our thoughts and insights into current challenges as well as possible solutions for dementia care systems in Wisconsin. Your opinion, experiences, and story matter! We need everyone's help in shaping how dementia care systems and supports move forward in our state, truly it cannot be done without everyone's contribution! This is part of Wisconsin's 2024-2028 State Dementia Plan, and the survey is open now through December 31, 2022.

As both a professional and family caregiver myself, I look forward to you joining me in this wonderful opportunity. The survey will take approximately 2-10 minutes of your time and will have a lasting impact on everyone's future. You can find below a QR code and link for the survey. Please share this widely and let me know how we can help support your efforts! If you have any questions, please feel free to reach out to me.

Be well,

Heather
