

November is National Family Caregiver Month 

 We are celebrating **YOU**,
the caregiver! 

Connecting with Caregivers

Join us for a series of videos featuring family caregivers as they share their experiences and stories. You are sure to hear laughter, tears, and practical tips as they candidly share stories of their triumphs and challenges. Follow along as they offer suggestions, share insights, and words of wisdom to caregivers walking a similar path.

Videos will be shared on our ADRC Facebook page throughout November and will also be available on our website and YouTube channel to watch at your convenience.
