Commerce*

2019

## Message from the President:

Business plays a crucial role in a community's economic system. The importance begins with the fact that at a minimum one in every six households owns and operates such a business. Businesses employ local citizens and are an economic engine that causes cash to move through the community's economy. Successful local businesses allow owners to remain in place and generate opportunities for employment and more opportunities for other entrepreneurs.

*Shaun Thompson  
President 2017-2019*
