of Somerset County**

Immigration 101: Understanding the U.S. Immigration System

**Presented by LVSC Board Member
and Immigration Attorney**

Snehal Batra, Esq.*

Thursday, September 18, 2025 on Zoom

Immigration issues are constantly in the news. It is important that people have access to accurate information, but unfortunately, there is an ongoing spread of misinformation. Here is your chance to hear from a trusted immigration attorney and get your questions answered.

*What are the ways in which immigrants enter the country legally?
What is a green card and how are they issued? Do all immigrants pay
taxes and get health care regardless of status? What are the benefits
and requirements to becoming a U.S. citizen? If a person is in the U.S.
without documentation, what are their options?*

This program is targeted for tutors and friends in the community who want to better understand the U.S. immigration system and current climate. It will be a high-level conversation presented in English. There will be a second presentation for students and tutors on Thursday, September 25th at 7 pm on Zoom focused on the specifics of Naturalization.
