August 14, 2020

Dear Parents,

For the upcoming school year, we will be using Magnus Health to have parents complete a daily COVID-19 screening assessment of their student(s) each morning prior to departure for school. The Magnus Mobile app will allow parents to complete this easily from a smartphone in just a few clicks. This screening process will help us to create the safest possible environment for your students and our faculty & staff by avoiding screenings at the door where person to person transmissions could take place. At the completion of the quick survey each morning, you will receive a message for the student's attendance instruction for that day. As this is a web-based system, you will have continuous access to your child's health record as well as the ability to make updates when needed to any health history. All health form updates will be able to be completed through their new app as well. We've included [instructions](#) to review and set up the app on your phone.

On August 16, 2020, you will have access to begin completing the Magnus Health COVID-19 Daily Screening for your student(s). You will access the screening via the button titled "COVID-19." We thank you in advance for your cooperation in this daily screening as it will be an imperative function of our safety protocols. All parents must submit the screening each morning for MSDA no later than 7:30am.

Timely submission of health information is vital so that preparations can be made prior to the start of each school day. Please reserve 1 to 2 minutes per child to complete this each morning.

Questions or Problems? For any school policy or attendance questions please contact our school office at 973-226-0660. For any technical issues with the mobile app such as login problems, or problems completing the screening please contact customer support at Magnus Health SMR by phone at 877.461.6831 or by email at service@magnushealthportal.com. Also, please feel free to consult the Magnus Health Privacy and Security page at www.magnushealth.com/privacy-and-security.

Sincerely,

Jennifer Froyland, BSN, RN, CNOR
School Nurse
