

THE TRUTH BEHIND VAPING

Who's Vaping?

1 in 5 High Schoolers

18-24 year olds are the highest age group of adult nonsmokers to vape

1 in 20 Middle Schoolers

Vaping 1 JUUL pod
is equal to smoking
20 cigarettes worth of nicotine.

63% of youth did not know ALL JUUL products have nicotine.

Vaping Nicotine May Lead To:

MOOD SWINGS **LOSS OF SELF-CONTROL**
ADDICTION **SLOWER LEARNING**

What's in the vape you're breathing?

TIN

NICKEL

FORMALDEHYDE

LEAD

It's not water vapor! Vape products are not fully regulated,
so who knows what else you're inhaling!

KNOW THE DANGERS

Youth vaping are being rushed to the hospital
for seizures, fainting, trouble breathing, and other
lung conditions, which can impact daily activities.

Thousands of
vape products have
exploded and caused
serious skin burns, fires,
and even death
