

Helping Our Children *Thrive* in a Digital World

School + Family Partnership for Digital Literacy & Well-Being

Technology is changing how children learn, connect, and grow.
Families don't have to be tech experts to help children build
healthy, thoughtful digital habits.

TOMORROW

Explore Family Resources

Digital Well-Being

Build balanced, healthy
technology habits.

Online Safety

Navigate devices, social
media, privacy, and
internet safety.

Critical Thinking

Help children question
information and make
thoughtful choices.

AI & Today's Technology

Start age-appropriate
conversations about AI
and emerging technology.

Find family tips, activities, articles, videos, media recommendations,
and conversation starters for children of all ages.

Visit **Common Sense Education: Family Engagement**
commonsense.org/education/family-engagement

Working together, schools and families can empower children
to use technology in positive, creative, and responsible ways.
