Each fall our Agri-Business Committees gather donations of food, wellness, and safety items from Chamber Members. The donated items are packed and hand delivered to the local farmers out in the field during harvest time. These items have been sincerely appreciated by the farmers.

This program has proven to be a valuable tool; letting the area farmers know they are an important part of our community and economy. In continuing with this collaborative effort, we are again hoping to prepare and deliver 300 buckets.

We are, once again, offering a variety of donation options.

- donate items, in quantities of either 150 or 300
- donate \$100 (or any other amount) to go toward the purchase of items.

Buckets are delivered throughout McLeod County.
