~ lives in North Brunswick~ graduated from Rutgers University School of Engineering ~ currently in graduate school while working full time ~ works at Bristol-Myers Squibb ~ loves traveling and learning about different cultures and different languages

We're so glad you're part of our TAF family!

Some additional comments about Maria: Maria and her family have been involved with The Aubrey Foundation since the beginning. She's most proud of the people she's met through TAF who continue to give so much to this amazing organization and each other so that we can collectively do great things for our community in Aubrey's memory. She's learned so much about dedication, service and teamwork through this work and has a huge appreciation for her TAF family. Maria starts each day with gratitude - she appreciates life's simple & beautiful gifts. Her magnetic energy, unique way of connecting with others and ability to nurture relationships with every person she meets is how Maria best [#LivesLikeAubrey](#).

Some additional comments about Stephanie: Stephanie joined the Executive Board this year, after having been on the General Board for a few years, as a way to get closer to event planning and gain a better understanding of how the foundation works 'behind the scenes.' She was most excited to see the planning and execution of Cigar Night from start to finish - which we just got through - and she is very proud of the 2021 Cigar Night Team for a great year! She carries Aubrey with her every day; Aubrey is the angel on Stephanie's shoulder, always reminding Stephanie to be confident in her skin. Stephanie continues to [#LiveLikeAubrey](#) by making others feel beautiful and encouraging others to be their true & fullest self because THAT will always be one's best self.
