Do you only pray when you need something from God? Do you wonder if prayer is working? Do you wonder if there might be more to prayer than you've learned before? Even lifelong Christians struggle with these questions. The Episcopal Church is a praying church. The Anglican tradition is blessed with many tools and techniques to equip individuals with a rich and vibrant prayer life. From liturgical prayer to contemplative prayer – there are different ways to pray for different people and personalities. Prayer School is a workshop that will help you form your own habit of prayer by drawing on liturgical disciplines like the Daily Office of Morning Prayer (from the Book of Common Prayer) and Contemplative practices (like centering prayer and the daily examen).

Everyday discrimination is recognized as one of the most pervasive problems affecting working women's physical and psychological wellbeing, professional performance, and career perspectives. It can be defined as commonplace comments, attitudes, and practices – intentional or not – that communicate hostile, derogatory, or negative racial, gender, sexual orientation slights and insults to a specific person or group. Most clergywomen report being an object of “everyday discrimination.” What are the best strategies to respond? This is the fifth in a series of six conversations for women in ministry grounded in research from Wellbeing at Work.

**Walking the Way of Lent through Storytelling with Bishop Porter Taylor**

*Five Thursday evenings, 7:00-8:00 p.m. (ET) via Zoom, \$65-\$75*

Lent is less a season to observe and more a walk to walk. As the days get longer and the light more accessible, so are we invited to cast aside all that gets between us and resurrection. One theologian commented, "Everything that happens to Christ happens to us." In that sense, the Bible is a road map for us to follow indicating the terrain of our journey with Christ and in Christ and to Christ. Therefore, these sessions are intended to help us discover how we can consciously walk the way of Lent. Each week we will focus on one of the readings from the Lenten lectionary from the previous Sunday. However, our intent is to discover how we are invited to live this Lenten journey in our own lives. This is not a Bible study; this is a community sharing how they have walked and are walking the Lenten pilgrimage by engaging a particular theme embedded in a scripture lesson for that Sunday.

**April 6 |**

**May She Flourish: Developing Your Well-Being Toolkit**

**Panelists: The Rev. Danae Ashley & Matt Bloom**

*3:00-4:00 p.m. (ET) via Zoom, \$10*

Clergy face unique professional challenges that place their physical, emotional, and psychological wellbeing at risk. Unsurprisingly, recent research suggests that clergywomen experience greater occupational stress than their male counterparts. Despite this situation, however, female ministers also show greater resilience and lower rates of depression than male clergy. Why? What are the factors and practices that protect and nurture clergywomen's wellbeing? The webinar will explore female ministers' experiences and clergy flourishing science to provide women with tools to face work pressures and increase wellbeing. This is the last in a series of six conversations for women in ministry grounded in research from Wellbeing at Work on the experience of women clergy.
