

PEDIATRIC DISASTER RESPONSE & EMERGENCY PREPAREDNESS

MGT-439 Course Description

This two-day course prepares students to effectively plan for and respond to a disaster incident involving children. It addresses the specific needs of pediatric patients in the context of an emergency response. This is not a hands-on technical course, it is a management resource course of lectures combined with small group and table-top exercises.

Course Topics

- Introduction to Pediatric Response
- Emergency Management Considerations
- Implications for Planning & Response
- Functional Access Needs Considerations
- Mass Sheltering Considerations
- Pediatric-Triage & Allocation of Resources
