

RDPO

Regional Disaster Preparedness Organization

2020 COMMUNITY ENGAGEMENT LESSONS LEARNED PROJECT

PURPOSE

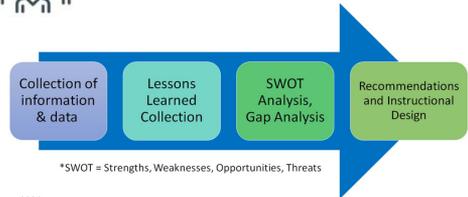

This project will collect feedback about successes and areas of improvement in communicating and engaging with the underrepresented communities leaders and the community-based organizations who walk beside them during the disasters of 2020. The lessons collected in this project will help our region revamp existing outreach, communications, training, and collaboration on projects and programs with culturally specific communities.

COMMUNITIES

PROJECT PHASES

2021

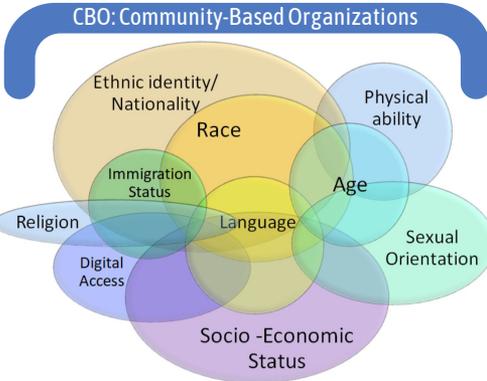

January – November | February – August | July – September | October – November

COMMUNITY ENGAGEMENT

Let's continue the conversation to create community and build resilience.

- Apply to join the conversation
- Confirm scope of participation
- Coordinate compensation
- Provide input and feedback from your community and beyond
- Develop, validate and plan improvement

Let's work collaboratively to benefit from the community engagement lessons learned during the 2020 disaster and promote actions and programs for the common future.
