Seniors and the Opioid Crisis

On average, 130 Americans die every day from an opioid overdose. Kim Elliot, MSN, RN, SVP of Clinical Services at Brookdale, offers her perspective on the underlying causes of this epidemic and what we can do to combat it.

Solving the Mystery of Polypharmacy

Adults are living longer and with multiple chronic health conditions, which can lead to the ongoing use of multiple medications to treat a single condition or ailment, known as polypharmacy. Join us to hear Kim Elliot and Todd King, Pharm D, CGP, Senior Director of Clinical Services at Omnicare, discuss the challenges of helping older adults balance their health and wellness and explore the strategy of "deprescribing". Sign up for a CE class near you.

ADDRESSING POLYPHARMACY

4 Tips for Preventing Medication Complications

The effects of taking multiple medications to manage co-existing health problems is called polypharmacy. Medication side effects and interactions can cause deadly harm, and seniors are especially at risk. Kim Elliott explains polypharmacy and what you can do to prevent it.
