

The Centers for Medicare & Medicaid Services (CMS) is committed to helping the Indian Health Service (IHS), Tribal Health Programs, and Urban Indian Programs to maximize their ability to access third party resources. To meet this objective, CMS holds face to face trainings for third party business office staff, in partnership with the State Medicaid agencies, Medicare, the Social Security Administration, and the IHS. Due to travel and training restrictions issued as a result of the COVID-19 pandemic, we have postponed our ITU trainings through June 2020. The CMS Division of Tribal Affairs has developed the following webinars to provide business office staff, patient registration and patient benefit coordinators the following virtual opportunities on topics featured at the CMS ITU face to face trainings. These webinars will be archived and will be available on <http://go.cms.gov/AIAN>. **Please register for the webinars using the link for each webinar below.**
