Note from Mrs. Coogler

This week was certainly one for the books! From MAP testing to an unexpected power outage, I have a feeling it may become a core memory for many of our students. More than anything, it was a reminder that when plans change, we can be flexible while trusting that God is still sovereign, still present, and still in control.

During the power outage, some of our students were understandably worried. As we stopped to pray, one of our sweet Kindergarten friends prayed that everyone would feel safe and remember that Jesus is the Light and He is with us! Wow—what a powerful reminder at exactly the right moment. Sometimes the Lord uses the smallest voices to remind us of the biggest truths.

My hope is that our students carry this truth with them far beyond this week: when circumstances change, when plans do not work out the way we expected, or even when things feel a little dark, we serve a God whose power is beyond what we can comprehend. He is faithful, He is sovereign, and He is always with us. What a blessing it is to watch our students not only learn these truths, but begin to live them out and remind one another of them!

Great is our Lord, and abundant in power; His understanding is beyond measure.” — Psalm 147:5

Great work!

Happenings on Campus and at Home

Our Hybrid students worked hard during MAP testing this week! They were focused, diligent, and committed to doing their very best, and I am so proud of the effort they showed. Due to Thursday’s power outage, Mrs. Singleton’s 1st and 2nd grade class will complete their Math MAP test on Tuesday, October 6th.

Of course, we mixed in plenty of fun with all that hard work! Our kindergartners enjoyed the cooler weather and some much-needed time outside after testing, along with a special Glow Party for filling their token jar through hard work and good behavior! Our 1st and 2nd graders also had a blast playing dodgeball in P.E. It was a great week of hard work, flexibility, and fun!

We love seeing our students engaged in learning both on campus and at home! We especially love capturing the fun and creative ways our families bring learning to life during their satellite instruction days. Please feel free to send pictures and highlights to ccoogler@pantego.com. We would love to feature them in this newsletter!

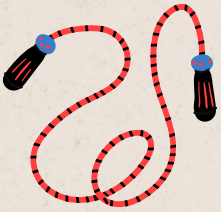

HYBRID Happenings

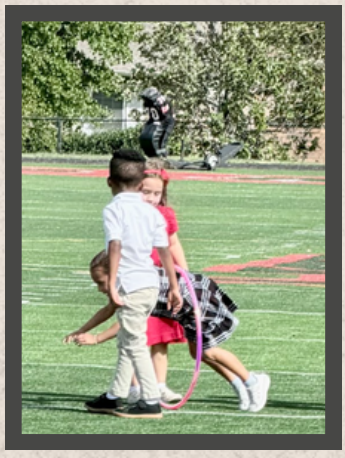

Vol 2 Issue #8
Friday, October 2, 2026

Upcoming Hybrid Dates

- 10/6 - Satellite Instruction Due
- 10/6 - 1st and 2nd Grade Hybrid Map Math Testing
- 10/13 - **No School; Staff Development Day**
- 10/20 - In-Class Spelling Bee Test
- 10/21 - Picture Day
- 10/22 - Storybook Parade
- 10/23 - Parent Conference (if not completed)
- 10/26 - Open House
