What's special about the 50th year? Biblical verses in Leviticus discuss the Jubilee year.

Join in a discussion led by Yoshi Silverstein from Mitsui Collective in Cleveland, Marqus Cole from Georgia Interfaith Power and Light and Adam Bartholomew from the Department of Religious Studies at Gonzaga University, to explore some verses describing Jubilee and how they are understood by different faith communities.

As we celebrate EXPO's 50th anniversary, let's look at what we've accomplished for environmental harmony and what needs to be taken on to make things right for the next 50 years.
