

Dear Generations Registrant,

After careful consideration, FBC leadership and Generations Committee have decided to postpone this year’s Generations conference until later in the year.

While we know this will come as a disappointment to many, we believe it is the right course of action given the rapidly evolving information and guidelines related to the Coronavirus (COVID-19) from the CDC, government, and local health agencies.

This decision **enables us to participate in the solution to mitigate the spread of the virus and ensures that we do not contribute to the problem** by unnecessary social exposure of our members and guests.

The conference committee is working hard to secure a future date and will notify you as soon as a new date is determined. We will honor all pre-paid registrations and event sponsorships for the rescheduled conference. Individuals with specific questions can email FBC Executive Director, Stella Premo at spremo@capfamilybus.org.

In the meantime, please continue the good work you do in our region and do what you can to support one another.

Thank you for your understanding, cooperation and support of our decision. We look forward to welcoming you to Generations 2020 at a future date.

Sincerely,

Amber Holwell
