**SPANISH** class – 3, 4, and 5-year olds look forward to a fun basic Spanish lesson once a week learning colors, greetings, numbers, holidays, etc.

**SCIENCE** class – 3, 4 and 5-year olds enjoy a weekly interactive Science class. Children learn how to recognize science in everyday life and enjoy fun experiments such as slime making, exploding zip lock bags, growing things, magnifying, measuring, and so much more!!!

**MUSIC** – 15 months thru Kindergarten meet daily for singing, dancing, instruments and movement.

**HANDWRITING WITHOUT TEARS** – Our 4 year old program uses The Get Set for School curriculum, a Handwriting Without Tears program. This program is based on developmental stages of writing, developing sensory motor skills (grip & drawing), teaches social-emotional skills, promotes capital and lowercase knowledge with music and play, and uses multisensory activities for letter and number formation. Also, Get Set for School incorporates play-based teaching, brings language and math to life with meaningful skills and easy to understand!! We love this curriculum!!!!

We also offer:
