

Avoid Stormwater Poo-llution!

Please pick up pet waste and dispose of it properly.

- **Dog waste is the 3rd leading cause of water pollution!**
- **1 gram of dog waste may contain up to 23 million fecal bacteria.**
- **Dog waste contains harmful diseases, viruses, and nutrients.**

- **Dog waste that washes into a river, stream, or creek contains bacteria and nutrients that degrade water quality and harm fish, aquatic plants, and other organisms.**
