Do you have an IDEA? Something you would like to Make? Do you want to learn how to use digital fabrication tools?

Join the Fab Lab Staff for **Open Fab Lab Hours in 2018**. We will help you learn to use the tools needed to “conceptualize, design, develop & fabricate” your idea! We want to encourage anyone and everyone to come in and use the lab, therefore access to the Fab Lab is FREE. We have a limited inventory of materials available free of charge. Depending on the scope of your project, there will be a suggested donation, or bring in your own materials. We also suggest if you do have a laptop to bring it with you!
