RenalEdge GPO Welcomes AmeriWater as a New Vendor Partner

Members Gain Access to Comprehensive Dialysis Water Purification Systems and Support Services

RenalEdge GPO announces a new vendor partnership with **AmeriWater**, an established industry leader in water purification systems and services for dialysis and healthcare applications. Through this partnership, RenalEdge GPO members gain access to a broad portfolio of water treatment products and services designed to support reliable dialysis operations, simplify water system management, and meet the specialized needs of renal care facilities.

“Reliable water purification is essential to dialysis operations, and providers need solutions they can depend on every day. Our partnership with RenalEdge GPO creates an opportunity to bring AmeriWater's uniquely designed dialysis solutions and nationwide service and support capabilities to meet the evolving needs of independent dialysis organizations, patients, and regulatory compliance. We look forward to helping members address their water purification needs with dependable products and responsive support,” said **Mark Doolittle, Senior Vice President, Sales & Marketing, AmeriWater**.

AmeriWater offers comprehensive dialysis water treatment solutions, including central dialysis water systems, portable reverse osmosis (RO) systems, heat disinfection and ozone disinfection systems, deionizers, filters, water softeners, and storage tanks. The company also provides deionization (DI) exchange and water testing services to support ongoing system performance and maintenance.

With extensive experience in the design, manufacture, installation, and servicing of water purification systems, AmeriWater combines flexible product solutions with technical expertise and a nationwide dealer support network to help dialysis providers meet their operational needs.

Additional information about this partnership, including enrollment details, will be shared on the RenalEdge website. To learn more, visit **www.RenalEdge.com**.

About AmeriWater
AmeriWater is an industry leader in the design, manufacture, installation, and supply of water purification systems and services for the healthcare sector, including dialysis and sterile processing, as well as industrial and other applications. In 2026, AmeriWater acquired Med Water Systems, a manufacturer of laboratory water purification systems for clinical analyzers, offering the highest-purity water in high volumes for research labs, healthcare facilities, and hospitals. Together, they offer a portfolio of configurable products and components that meet regulatory and customer standards.

AmeriWater is headquartered in Dayton, Ohio. For more information, visit www.ameriwater.com.
Med Water Systems is headquartered in Woods Cross, Utah. For more information, visit www.medwatersystems.com

About RenalEdge GPO

RenalEdge GPO is an exclusive group purchasing organization operated by Renal Services Exchange (RSE), a wholly owned subsidiary of the Renal Healthcare Association (RHA). RHA represents nearly 11% of U.S. dialysis facilities and serves approximately 60,000 patients nationwide. RenalEdge delivers transparent, trusted, and value-driven purchasing solutions to help independent dialysis providers thrive. www.RenalEdge.com
