

## Supporting Community Schools - Multicultural Holiday Celebration

In last month's newsletter, we shared how CCSI has been supporting Community Schools, serving both as lead agency for the Enrico Fermi School 17 community schools implementation and as the Site Coordinator for the Kodak Park School 41 community schools work. To stay current on our work in this area, keep checking back to [our webpage](#) where we'll post updates about our work in community schools.

Last week, the students at School 17 were treated to a multicultural holiday celebration! The event featured workshops about various winter holidays including Christmas, Kwanzaa, Hanukkah, and Three Kings Day. CCSI sponsored a cookie decorating station, and there was a winter concert, cookies with Santa and candy with the Three Kings. Special thanks to CCSI's Annette Powell for volunteering her time at the event.
