

# TRANSFORM SECURITY WITH ZSCALER

# ZERO TRUST EXCHANGE

**Business is happening everywhere -  
including off the corporate network.**

Zscaler Zero Trust Exchange is a modern approach that enables fast, secure, connections and allows your employees to work from anywhere, using the internet as the corporate network.

Zscaler Zero Trust Exchange runs across 150 data centers worldwide, ensuring that the service is close to your users, co-located with the cloud providers and applications they are accessing.

Zscaler Zero Trust Exchange guarantees the shortest path between your users and their destinations, providing comprehensive security and an amazing user experience.
