

Midterms in the High School First Semester 2022

Midterms in the High School completed the semester for our High School students. Some classes offered final projects for the students to demonstrate all that they had learned.

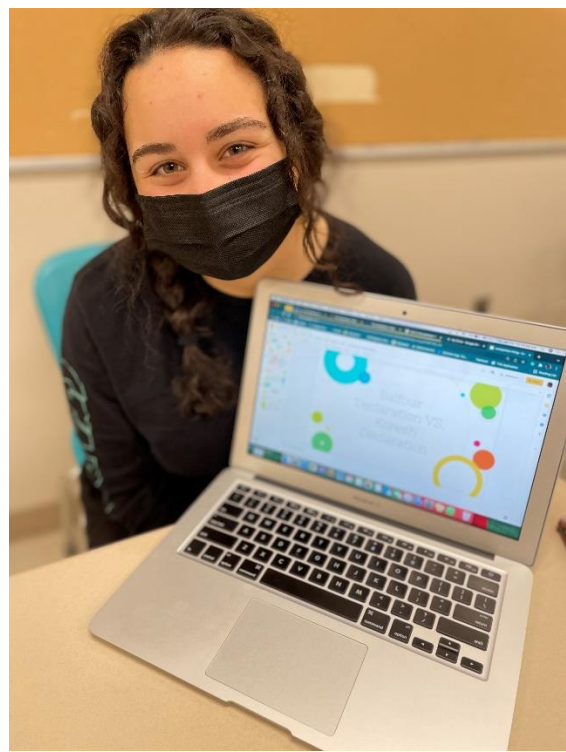

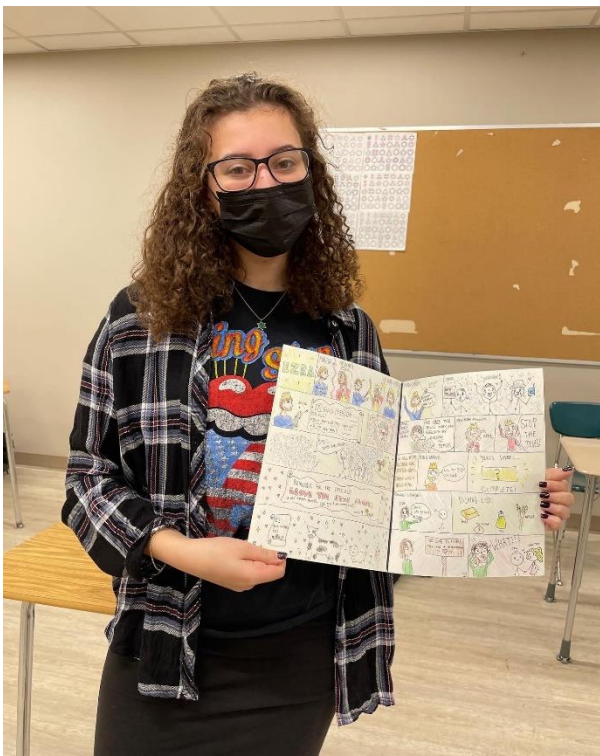

GIRLS GBMP

Rabbanit Rachel Weber Leshaw , from Midreshet Lindenbaum, gave the students of GBMP (Girl's Beit Midrash Program) their oral bechinah. The students answered confidently and correctly as they read, explained, and expounded on Masechet Kiddushin.

Mr. Digadker's Navi Class

Mr. Digadker's Navi class learned Ezra and Nechemia. Each student chose a different medium to interpret an aspect that they had learned from those two Prophets. Some chose to write a report, others chose a more creative approach like a comic book or a dramatic presentation. The class then celebrated the completion of the semester by making Knafeh, a traditional Middle Eastern dessert made with spun pastry called kataifi, soaked in sweet, sugar-based syrup and typically layered with cheese and pistachio nuts.

Morah Rinat's Hebrew Class

Morah Rinat's Hebrew class, read the book Haed Ha'acharon—The Last Witness. Each student made an oral presentation in Hebrew covering various topics on the Holocaust such as Raul Wallenberg, Janusz Korschak, and the St. Louis.
